

SA – Social Science

IHGR's Social Science Programme at IHGR is a national programme following the Swedish curriculum. However, all subjects, but Swedish, are taught in English. Within this programme, the focus is on the social sciences and humanities.

The Social Science Programme of IHGR has a truly international focus. In our subjects we focus on current events with an international focus. The Social Science Programme of IHGR will provide you with the opportunity to continue your studies abroad or in Sweden. In order for our students to apply what they learn, you will as a student at the Social Science Programme participate in different role plays, such as the UN Role Play and the European Youth Parliament (EYP). This we combine with a variety of field trips, for example to the Swedish Parliament.

IHGR is a small school with a family feeling. Everyone should have the individual freedom to be who they are and this creates an accepting atmo-

sphere here in the school. Going to school is not only about developing academically, but also as a person. The students have the opportunity to influence with developing a well functioning learning environment where school spirit is an integral part. That our former students still keep in touch and visit us we see as the greatest proof of our success in creating a safe, secure and developing atmosphere for our students.

The Social Science Programme of IHGR is a preparation for university studies. Our academic standards are high in order for our students to be as well prepared for university as possible. The SP students should develop and strive to be: communicative and open-minded world citizens, who are knowledgeable, analytical and curious critical thinkers.

IHGR is simply a small school made up of big opportunities (Ella)

Abdoulie

There are so many things I like about our school: the diversity, which makes me feel very comfortable, the amazing bond we have and the good education. Together this makes IHGR a really special school.

Skye

Social Science Programme with Advanced English Profile.

IHGR is such a cozy school with a very homey feel to it. The diversity creates a welcoming atmosphere where you can feel safe and where you can be yourself.

Kajsa

IHGR is like a second home to me. Both students and teachers are very welcoming and helpful. Because it is a fairly small school, the education is very individualized and focused on the students. This is the perfect school for anyone looking for a warm and welcoming school.

Ella

Social Science Programme with Advanced English Profile.

IHGR has offered me real learning opportunities both inside and outside the classroom and possibilities to develop as a student as well as an individual. This is simply a small school made up of big opportunities, where growing is in focus and learning is prioritised.
